Likely Local Impact - No Estimate Available

FISCAL IMPACT SUMMARY

The Senate PCS for House Bill 320 would extend the PUV classification and treatment to land that is actively and regularly used as a reserve for hunting, fishing, shooting, wildlife observation, or wildlife activities. The 100 acre restriction is expanded to 800 acres for this classification.

FISCAL ANALYSIS

The PCS expands the acreage that would qualify for Wildlife PUV by including land that is actively used as reserves for hunting, fishing, shooting, wildlife observation, or wildlife activities. The current wildlife PUV program requires a written wildlife habitat conservation agreement through the NC Wildlife Resources Commission. The current program also has an acreage cap of 100 acres that will be increased to 800 acres for the new wildlife designation.

The expansion of land that qualifies for Wildlife PUV will result in reduced valuations and tax revenues for counties and possibly some municipalities; however, it is not known how many additional acres will qualify. Therefore no estimate of the impact is available.
